

Project Milestone 3: Interactivity, Review and Revision

[20 points]

Objectives

- Introduce more interactivities into project
- Review and revise the web project

What to do

1. [4 points] Complete the Web Project (Hands-on Practice Case) in **Web Project** section at the very end of chapter 13 of the textbook to include appropriate description meta tag of each page.
2. [4 points] Complete the Web Project (Hands-on Practice Case) in **Web Project** section at the very end of chapter 14 of the textbook to add JavaScript interactivity to your page.
3. [12 points] Each student finds two reviewers (can be your relatives, friends, classmates, etc.) to review the project web pages. Each student finishes a review report as a pdf document to get the points for this task. In the review report, please include the three comments from your reviewers [6 points] in and improvements you have made according to the comments. [6 points]

Submission:

Zip the source code and the review report, submit to D2L.
